## From the founder's desk

Welcome to the 1<sup>st</sup> edition of the Monthly magazine of Suraj Education Group. I am feeling proud and excited to praise that we are ready with all new hopes and hues to bring out from the very first issue of our magazine "URJA", which is going to surely unfold the unraveled world of the most unforgettable and precious moments of the school which are missing due to COVID-19.

The magazine is to be viewed as a launch pad for the children's creative urges to blossom naturally. As the saying goes, mind like parachute works best when opened. This humble initiative is to set the budding minds free allowing them to roam free in the realm of imagination and experience to create a world of beauty in words.

The school is an incarnation of self-respect, love, affection, sensibility; responsibility and compassion which puts the students into a "State of flow". We recognize, appreciate, applaud and foster the fine blend of sensibilities in a child changing a negative outlook from drab and demoralized to bright and expectant. This school attains its eminence in the first place through the achievement of students. The magazine also espouses the School spirit which is built up within the school through the collective actions, thoughts and aspirations. All these, I believe would spur higher growth and enterprise in children.

This is our first issue, more issues yet to come, don't get depressed if your articles are not included in this issue. I invite all Suraj school Principals, Teachers, staff, students, Parents etc. to be a part of this monthly magazine.

**Best Wishes!!**

**Jagdish Prasad (Founder & Chairman of Suraj Education Group)**

## From the director's desk

It gives me immense pleasure to ensure that this magazine "URJA" is a reality and I am sure this will be successfully accomplished its objective. The reflection of the students' creativity and achievements will be the epitome of the magazine. Students have put forth their ideas and thoughts that are too deep to be expressed and too strong to be suppressed. The enthusiastic write ups of our young writers are indubitably sufficient to hold the interest and admiration of the readers. We have put in relentless efforts to bring excellence. I am sure that the positive attitude, hard work, sustained efforts and innovative ideas exhibited by our young buddies (Entire Suraj Family) will surely stir the mind of the readers and take them to the dreamlike world of pure joy and pleasure. This magazine is before you with the combined efforts of the Editorial Board, Urja Team.

Thanking You!

**Sandeep Prasad**  
**(Director, Suraj Education Group)**

## From the editor's desk

This magazine is indeed a pious and our sincere attempt to make our budding talents give shape to their creativity, appreciate and recognize their work because I believe that success depends upon our power to perceive, the power to observe and the power to explore.

I take the opportunity to thank all the contributors as their contribution is the reason that makes this magazine into a reality.

Thanking You!

# Covid Pandemic or Hoax

It has been my opinion that Covid is overhyped in India and people and government have been sent to an unnecessary fear. We are different from western countries both in terms of our demographics and inherently higher immunity. More than 1/3rd of the deaths in west are in old age homes which are virtually nonexistent in India. I did a back of the envelope calculation on projected Covid deaths in India. It counts to less than 2 deaths in every 1000 infections for people less than 60 years of age.

About 1 in 5 adults in England believe the coronavirus is to some extent a hoax, according to research on conspiracy theories by the University of Oxford. (Sample Size 2500 Adults). What people thinks in India matter more for us. Initially when Indian Government declare COVID-19 as a pandemic and start the process of complete lockdown for more than a month, attract the people mind to the seriousness of the matter. During the **lockdown**, an estimated 14 crore (140 million) people lost employment / jobs while salaries were cut for many others. The Indian economy was expected to lose over ₹32,000 crore (US\$4.5 billion) every day during the first 21-days of complete **lockdown**, which was declared following the coronavirus outbreak. Education Industry is badly impacted with this pandemic.

Initially India controlled the COVID-19 brilliantly during lockdown 1 or 2, then there were very few cases per day, but now when lockdown is over, cases are increasing very fast in India. Now India is at 3<sup>rd</sup> position in matter of COVID Cases.

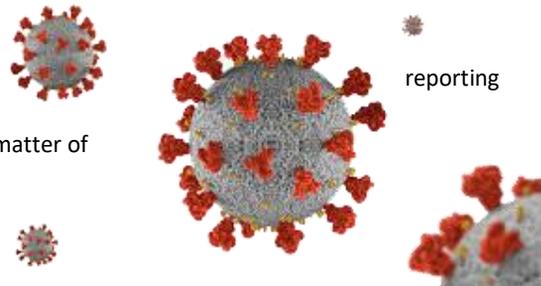

According to Suraj School Director Mr. Sandeep Prasad ji, "Social Media, TV channels debates, Other source of media over hyped the Pandemic. According to director, why channels are not talking about only active cases, rather than overall cases. In India, immunity of Indian peoples are very good, Access use of Hand Sanitizers, Masks may leads to new problems in future. However, Sandeep Prasad is in favor of using social distancing. While talking about when school and regular classes should be opened, Maximum school wants regular classes should be open for senior classes with all precautions.

"**Hand sanitizers** are antiseptic products—they are formulated to disinfect the **skin**," says Vanessa Thomas, a cosmetic chemist, and founder of Freelance Formulations. ... Frequent use of it can cause **skin** irritation, or dry out the **skin**. If you have sensitive **skin**, the effects can be **worse**.

During the coronavirus disease pandemic rising in 2020, governments and nongovernmental organizations across the globe have taken great efforts to curb the infection rate by promoting or legally prescribing behavior that can reduce the spread of the virus. At the same time, this pandemic has given rise to speculations and conspiracy theories.

Suraj school is working on the safety measures of the students. It is the main reason to continue with online classes for the benefit of our beloved students. Management and staff members are more cautious about the health, fitness and moral, intellectual, as well as mental strategic evaluation of a new generation. Suraj School's Teachers are using their innovative ideas for a systematic and speedy

recovery from mental harassment and fear of Pandemic. School believe that staying inside and don't wander around. Parents can spend time with their children to avoid their frustration and can provide a happy family environment. You may have Television, AC, and WiFi as your friends but you can share doubts with your parents and teachers. Every child in the class is someone's whole world. It is my humble request to all the parents that we all have a part to play when it comes to keeping our children safe, healthy, and fit. At this time of COVID-19, nothing has more impact than the voice of experience. We can provide the platform to our kids based on our experience and ability to fight the stress and anxiety created by the hazardous and negative thoughts given by media or anti-social elements.

**KNOWLEDGE BANK**

**Taumata Hill**

In New Zealand near Porangahau in Hawke's Bay is an unassuming hill known as "Taumata whakatangi hangakoauau o tamatea turi

into English means "the place where Tamatea, the man with the big knees, who slid, climbed and swallowed mountains, known as 'landeater', played his flute to his loved one." Locals simply call it Taumata Hill.

# SUDOKU PUZZLE

**How to play Sudoku**

The goal of Sudoku is to fill in a 9x9 grid with digits so that each column, row, and 3x3 section contain the numbers between 1 to 9. At the beginning of the game, the 9x9 grid will have some of the squares filled in. Your job is to use logic to fill in the missing digits and complete the grid. Don't forget, a move is incorrect if:

- Any row contains more than one of the same number from 1 to 9
- Any column contains more than one of the same number from 1 to 9
- Any 3x3 grid contains more than one of the same number from 1 to 9

			7	8		4		5
	5		4		9			
	7			2				1
			2			1	9	
3		2	1	9		8	6	
		7	8		3			
7	3		9		8	6	1	2
	1			7		3	5	
		5	3	1	2			9

## Quiz time MIXED BAG

**Q.1) In which year was the Pulitzer Prize established?**

- A. 1917 B. 1918 C. 1922 D. 1928

**Q.2) To announce the early release of which movie on 13th March, did the makers tweet 'Father's Day comes early'?**

- A. Angrezi Medium B. Paa C. Waqt D. Hindi Medium

**Q.3) Born in Karnal on 17th March which lady was part of the crew of 'Columbia' as a mission specialist and primary robotic arm operator?**

- A. Kalpana Chawla  
B. Vikram Batra  
C. Jaydev Unadkat  
D. Biju Patnaik

# CRITICAL THINKING AND PROBLEM SOLVING

There are six apples in the basket. Six people take one Apple each. There is still one apple in the basket. How it is possible?

Does every problem require a complicated solution? The most important skill for handling difficult problems is Critical Thinking. It can help you to find the best possible solution in any situation.

The future is full of uncertainty for younger generation. On one hand, the COVID-19 pandemic situation demands students to learn skills that can help them adapt to an uncertain future. It is the most crucial global health calamity of the century and the greatest challenge that the humankind faced since the World War II. It has triggered disastrous socio-economic crises of unprecedented scale globally.

On the other hand, latest technologies such as artificial intelligence, machine-learning, robotics, nanotechnology and 3-D printing are driving rapid changes in the global economy. Fast paced advancement in technology is changing the world rapidly. A student who is joining in school today will start getting into jobs after 15-20 years and most of those jobs are not even defined today. Students are required to be able to deal with changes quickly and effectively. So it's very important that we make them ready for the uncertain future.

The ability to analyse information and integrate diverse sources of knowledge in solving problems has become very important. The NEP 2020 focuses on key concepts and ideas in order that children are able to practice more critical thinking and among other things, more analysis-based learning.

As per World Economic Forum, the top 10 skills needed in the year 2020 are-

01. Complex Problem Solving
02. Critical Thinking
03. Creativity
04. People Management
05. Coordinating with Others
06. Emotional Intelligence
07. Judgement and Decision Making
08. Service Orientation
09. Negotiation
10. Cognitive Flexibility

To be a leader, one needs to develop the skills of critical thinking and problem solving. The good part is that these skills can be developed by anyone with practise.

Let us see how critical thinking helped a poor girl to come out of a difficult situation.

## **The Farmer's Daughter**

Many years ago, a farmer owed a large sum of money to a moneylender. The farmer was not able to repay the amount. The moneylender, an old and cruel man, wanted to marry the farmer's daughter.

Hence he proposed a deal. He said that he would put a black pebble and a white pebble into an empty bag. Then the girl would have to pick one pebble from the bag. If she picked the black pebble, she would become his wife and her father's debt would be forgiven. If she picked the white pebble she need not marry him and her father's debt would still be forgiven. But if she refused to pick a pebble, her father would be thrown into the jail.

They were standing on a path with pebbles all around them. The moneylender bent over to pick up two pebbles. As he picked them up, the sharp-eyed girl noticed that he had picked up two black pebbles and put them into the bag. He then asked the girl to pick a pebble from the bag.

The girl was in dilemma. If she picks a pebble now, her father will be saved from the debt but her life will be sacrificed. Thinking hard, she put her hand into the moneybag and drew out a pebble. Without looking at it, she fumbled and let it fall onto the pebble-strewn path where it immediately became lost among all the other pebbles.

"Oh, I am sorry" she said. "But never mind, if you look into the bag for the remaining pebble, you will be able to know which pebble I picked."

Since the remaining pebble in the bag was black, it was decided that she had picked the white one. The Moneylender had to forgo the debt of the farmer and the girl also got saved from marrying him.

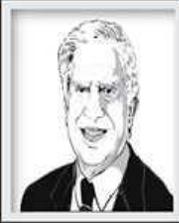

The girl changed an impossible situation into an extremely advantageous one with her critical thinking. So be creative in solving a problem and and enjoy the fun it brings.

The effort of education system should be to create healthy learners who are equipped with positive attitude and Skills. These will help them to make informed decisions, solve problems, think creatively and critically, communicate effectively, build healthy relationships, empathise with others, cope with challenges and manage their lives in a healthy and productive manner.

Ajay Jain, CEO of Zenik Olympiad, the world's first online test which imparts global perspective and wisdom to help students improve their 21st century skills says that "Most great people have achieved their greatest success, just after their greatest failure. I strongly believe that teaching children critical thinking and problem solving skills is the best way to ensure that the future generations flourish"

Answer- The last person took the apple with the basket. So, one Apple is still in the basket. Simple solution.

# To Mother Earth I Owe

**Mother Earth our Saviour our guide.  
it is our duty  
It's rule we have to abide**

**We owe everything  
our lives , our souls it is our duty  
to save it from drowning into a black hole.**

**we come from the earth  
and we go back into it  
It's just a circle, we owe everything to it ,  
every single bit.**

**Thy father created the earth made it to help us  
survive , and we are killing our mentor each day  
instead of making it come alive.**

**we're just humans !  
can't do anything without the mother earth !  
we can't just lose it...  
to the aftermath of our selfish mirth.**

**it's our mentor  
it's our only way to live and to cherish.  
We owe everything to the earth ,  
take care of it,  
Or else, future will remain a mere wish !**

## OUR NATURE

There is a beauty in this terrain  
Of plants flowers and this rain  
It's a great moment to see  
The birds flying and trees swing  
And precious priceless pride it brings

There is a smile when the tall grass dances in air  
The cosy clouds going here and there  
The rivers flow and tiny pebbles shine

The high mountains are all covered with pine  
The sea is loaded with high waves  
There is something our mother nature wants to say,  
"Be proud and at peace,  
There are a ample of opportunities  
to cease"

# बचपन

एक दफे की बात है,  
जिसकी याद है धुंधली।  
चला करता था जब थाम  
कर, पापा की उंगली।।

उछलता था बाग में,  
हाथों से छूने को तितली।  
मचलता था रास्तों पर,  
खाने को कुल्फी पिघली।।

रात में भागता छत पर,  
गुल होते ही बिजली।  
झगड़ता जब छोटी से,  
पाने को आम की गुठली।।

था कागज का हवाई जहाज,  
मगर दिलों में उड़ान थी असली।  
दौड़ता अम्मा के आंचल को,  
कर देता जब कोई दादा से चुगली।।

अब है मुरवौटा हर चेहरे पर,  
और हो गए हम भी है नकली।  
जी रहे हैं हम सब बेबस,  
बंद कर वक्त की कठपुतली।।

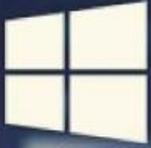

# प्रकृति

हरे हरे खेतों मे बरस रही हैं बूँदें  
खुशी – खुशी से आया सावन  
भर गया मेरा आँगन ।।  
ऐसा लग रहा है जैसे  
मन की कलियाँ खिल गयी वैसे  
ऐसा कि आया बसंत  
लेके फूलों का जश्न ।।  
धूप से प्यासे मेरे तन को  
बूँदों ने दी ऐसी अँगड़ाई  
कूद पड़ा मेरा तन मन  
लगता है मैं हूँ एक दामन ।।

# BEYBLADES – THE TOY AND THE SERIES

1. Beyblades are popular spinning toys in Japan and other countries including India.

2. As per the history of Beyblades, the idea of Beyblades was taken from **Beigomas**, which are small spinning tops, which were made up of Iron and other metals. To spin them, long piece of thread was used, first you wrap vertically once and the horizontally, and then with a throw motion pull the string to spin and play the **Beigoma**, one can also use a stadium type setup to do battles against one another.

Beigoma

Beigoma stadium

1st generation beyblade

3. Then came the plastic generation of Beyblades, and instead of strings or threads, launchers were used to launch or spin the Beyblades. The first product was launched by Japanese company – **TAKARA TOMY** in early 90's.

4. Following this the metal generation came in which 4 seasons (series) were made:

- Metal Fusion.
- Metal masters.
- Metal fury.
- Shogun steel.

Gen 2 metal Beyblade

6. The Metal fury series had the following parts of the Beyblades:

- Face bolt.
- Energy ring.
- PC Frame.
- PC core.
- 4D bottom.

8. In metal saga, there are automatic string launchers, which reel back after the Beyblade has been launched. After metal saga came the burst system in which Beyblade is divided into 3 parts only:

- Energy layer.
- Metal ring.
- Driver.

10. The burst series was started in 2016 in rest of the world. However, in India it was started in 2017. The latest series of Beyblade burst premiered in 2020. Between the metal saga and burst series, there were other series too, which related to Beyblades namely, viz.

- Beywheelz.
- Bey warrior cyborg.
- Beyraiders.

5. In metal saga (Series), except metal fury and shogun steel, there are 5 seasons (series) each where the Beyblades used had the following parts:

- Face bolt.
- Energy ring (clear wheel).
- Fusion wheel (metal wheel).
- Spin Track.
- Performance tip (bottom).

7. The Shogun steel Series had the following parts of the Beyblades:

- Face bolt.
- Metal wheel and crystal wheel (can be flipped upside down).
- Spin track.
- Performance tip.

9. The burst system series is divided into 5 seasons (series):

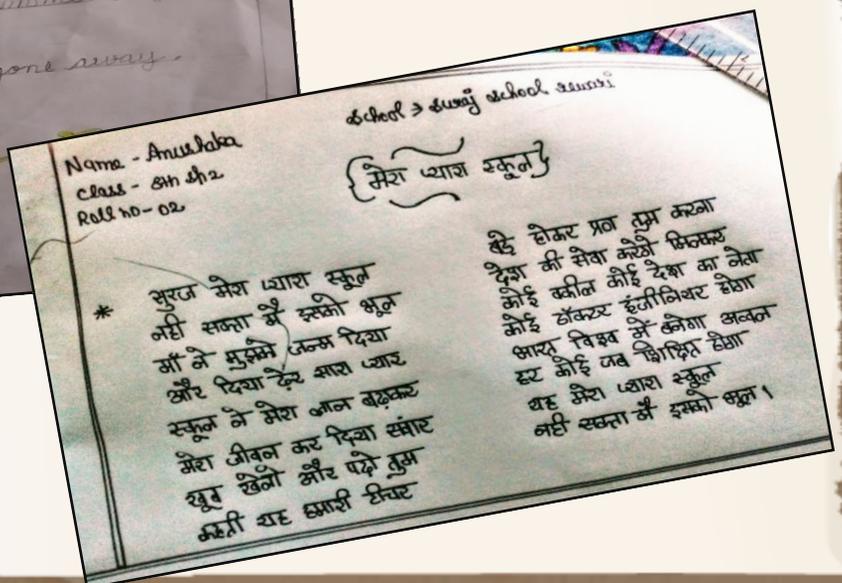

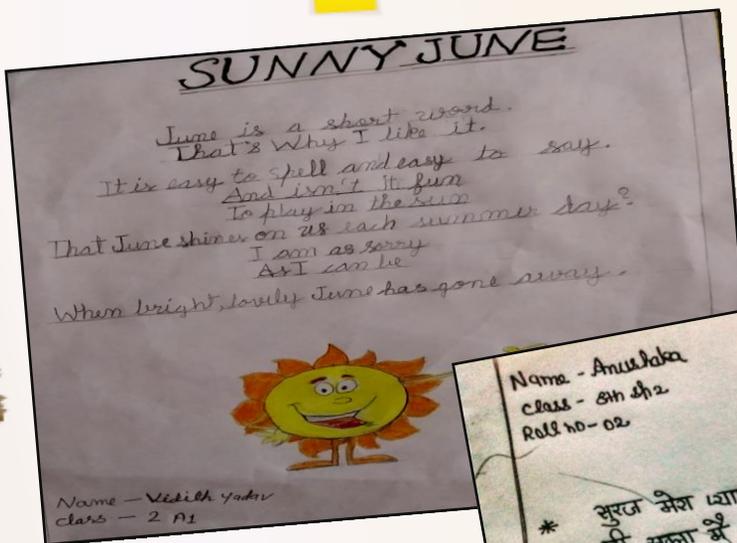

- Burst.
- Evolution.
- Turbo.
- Rise.
- Sparking super king.

**However, it is pertinent to note that these series were not too popular and did not succeed the same way as the metal saga, or burst series or the first generation of Beyblades – the plastic bays...**

# SOME TRUE FACTS

- ✓ The most selfish 'one' letter is — 'I' (Avoid it)
- ✓ The most satisfying 'two' letter word is — 'we' (Use it)
- ✓ The most damaging 'three' letter word is — 'EGO' (Quit it)
- ✓ The most friendly 'five' letter word is — 'SMILE' (Achieve it)
- ✓ The most admirable 'seven' letter word is — 'SUCCESS' (Achieve it)
- ✓ The most powerful 'nine' letter word is — 'KNOWLEDGE' (Achieve it)
- ✓ The most positive 'ten' letter word is — 'CONFIDENCE' (Possess it)

# Corona conversations

In the wake of coronavirus, several schools and colleges have been shut in many parts of the world to contain the spread of covid-19, as public awareness and conversations around the novel virus increase, the situation can get the children anxious and worried for their family members and friends.

Parents, family members, teachers, healthcare professionals and trusted adults play a significant role in helping children make sense of what they hear in a way that is honest, accurate and minimise their fear or anxiety.

Dr. Sreenath Marikanti, senior consultant Neonatologist & HD for La Femme hospital, Richmond Road, Bangalore shares a few tips to help make the corona conversation easier around children.

## Amazing Facts

1. The original name of butterfly is flutterfly.
2. A snail can sleep for three year.
3. It is impossible to sick your elbow.
4. Ostriches can run faster than horses.
5. Pig is the fourth most intelligent animal of this world.
6. Paris and France have more dogs than people.

# A Glimpse of World War 3

## THE DESTRUCTION DAY

Listening to the news anchor,  
the last Monday Bound to think ,  
my little brain says “  
The coming one may be the DESTRUCTION DAY“

Presidents are announcing  
Soldiers are strategizing  
Missiles are ready  
and the bombs all set  
Cos' the coming one may be the DESTRUCTION DAY

Lots of courageous mothers,  
are holding their breathes  
Their sons can be ordered,  
to come to the border  
Cos' the coming one may be the DESTRUCTION DAY

Any night can turn to last  
Nobody knows when it is to blast  
This beautiful world,  
may left to burn  
Cos' the coming one may be the DESTRUCTION DAY

Peace if brought by this war,  
then let it happen  
But no light can be seen,  
at the end of this tunnel  
Cos' all it can bring is the DESTRUCTION DAY

Death is the least,  
of what I imagine  
After those deadly clouds,  
this war can bring about  
After all those cries,  
that this war can bring about  
and after all those ashes  
that this war can bring about  
Cos' all it can bring is the DESTRUCTION DAY

Dragon and Trump will not be fighting  
They would be hiding  
When lots would be striving  
When God's creation, will be set to evaporation  
When nobody will be left, to celebrate with them  
Cos' all it can bring is the DESTRUCTION DAY

Not a war against humanity  
Yes...it's a war against the almighty  
And that my friends is the harsh reality  
A Destruction Day  
A Destruction Day  
and just a Destruction Day....

## Be what you want to be!!

They say You won't get it right,  
And you would prove them wrong;  
They say you are not bright,  
And you would shine all day long.  
They say You are impossible,  
You would bring the sky down;  
They say you are boring,  
You would laugh & not frown.  
They say it's not your cup of tea,  
You carve yourself a niche;  
They say you won't reach there,  
You build yourself a bridge.  
They say, they undermine, they challenge  
you to the core;  
They fail to see the fire in your belly to  
notch up the score.  
Ignore those hushes ;avoid the hearsay  
Those are the people they are there to say  
Feet on the clouds; glide carefree,  
Fly towards your aim &be what you want  
to be!!

## Woman: The Wonderful Creation of God

*" If you educate a man, you educate a man only. If you educate a woman ; you educate a generation."*

Woman is the best creation of God, but our society no longer promotes God's values for the woman. Modesty, discretion, virtue and graciousness are seemingly relics of a bygone era- as out of the place as the horse and carriage. Instead" the ideal" woman of the era is powerful, outspoken, sophisticated , career oriented, aggressive , glamorous , independent ,self - sufficient and no doubt sensuous. She needs no one and nothing. She is in control of her own life as well as the people and circumstances around her. Woman is the stake holders of the society and playing a prominent role in the development of the society. They are capable of sharing all the responsibilities of life.

As Nepolean said," Give me good mothers and I will give you great nation. Absolutely true - the progress of the nation depends upon the way the mothers bring up their children. I don't want to give the name of women who changed the society and created history because our sophisticated society knows about them.

To conclude, women are an individual identity who have full freedom of doing anything that they think is the best for them.

*" Who is this. Who looks down like the dawn, beautiful as the Moon, bright as the Sun.....indeed- A WOMAN"*

# Open Letter to Parents

**Dear Parents,**

We do hope you & your loved ones are safe during this trying period of the covid-19 pandemic. We are grateful to have cooperative parents like you, who have supported us for years. For Suraj Education Group of schools the overall health & wellbeing of our students has always been our primary concern. In addition to our existing hygiene & cleanliness standards, we have further implemented further preventive measures based on guidelines from the Ministry of health & family welfare, which include

- Sensitizing & training our team members on all cautionary & preventive measures.
- Continuous sanitisation with appropriate disinfectants of all areas & classrooms including glass/ plastic/ metal surfaces/ furniture, table tops, switch buttons, door knobs, railings etc..
- All school workers/ staff/ visitors will undergo a body temperature check on entry to our premises using non - touch digital thermometers.
- In all general/ common areas we have provided clinically approved hand sanitizer's. These include lobbies, washrooms etc.
- For in school premise / students who may not feel well at anytime, our schools are in association with multinational clinics & child care centers in same city to have defined protocol to assist for immediate medical care.

We also understand that in these uncertain times, studies of our children should not hamper so our team of dedicated teachers will share some home assignments for students practice & digital content as well as video lectures of the different subjects that you can get from youtube channel" SURAJ EDUCATION GROUP" link.

Students can also visit schools website & can get the digital content on the homepage of the website. Moreover our teachers will be in constant touch with you and will keep sharing necessary study material through parents broadcasting groups. Please feel free

to contact us anytime at

[surajschoolgurugram@gmail.com](mailto:surajschoolgurugram@gmail.com)

[Vice-principal@surajschool.com](mailto:Vice-principal@surajschool.com)

In the meanwhile please stay safe.

With Warm Personal Regards
